Only one communications company connects the entire globe

Iridium commands the world's furthest reaching network, making it the only truly global communications company with solutions that span from pole-to-pole. Iridium voice and data products provide superior communications solutions that allow global companies, government agencies and individuals to stay connected everywhere. With a unique, global ecosystem of partners, Iridium continues to create new, high-value capabilities that are leading the world into a new era of communication.

www.iridium.com
Smarter. Tougher.

A new force in mobile communications has arrived. It is the first phone to combine location awareness, a fully integrated SOS button with included emergency response service, and market leading toughness. No other satellite phone lets you take so much with you in hand, all over the world.

In Touch

Iridium Extreme® is built with the same reliable voice and data capability that users have come to trust from the only real mobile, real global satellite communications company in the world. But Iridium Extreme® doesn’t stop there.

More Features Than Any Other

Iridium Extreme® is engineered with more features than ever before and more accessories than any other satellite phone on the market, providing people with even more ways to connect.

- GPS-enabled location-based services
- Online tracking
- Customized solutions enabled for diverse markets
- Accessories to create instant Wi-Fi hotspots
- Satellite Emergency Notification Device (SEND) compliant SOS button design
- Reliable two-way global coverage
- Toughest military-grade designed satellite handset ever built
On Track
Iridium Extreme® is the first satellite phone to offer the fully integrated services of customizable GPS, Online Tracking and Emergency SOS with Notification. More than a phone, it is a real mobile, real reliable tracking device with truly global coverage.

The Only Phone With Integrated Tracking
Through accredited online portals, Iridium Extreme® offers an open development platform for partner-developed location-based solutions providing real time tracking to increase business efficiencies, improve military and emergency response, track critical assets or simply keep family and friends up-to-date.

- Access users through on-demand tracking
- Monitor employees en route through position updates and geo-fencing
- Use scheduled check-ins to instruct daily missions
- Let family and friends track your location online through social network updates
- Ensure safety of remote personnel
- Disable tracking on demand for stealth operations
- Using Google Maps, Iridium Extreme® even allows you to send an SMS text message with your exact location co-ordinates to anyone, from anywhere on the surface of the planet

The Only Phone With Integrated SOS
Iridium Extreme® is the first phone ever built with a programmable, GPS-enabled, one-touch SOS button. With a Satellite Emergency Notification Device (SEND) compliant SOS button design, Iridium Extreme® will alert your programmed contact of your location and will help create a two-way connection to assist in the response. It is the only satellite phone with GPS-enabled SOS with emergency services supported by GEOS Travel Safety Group Limited, included at no additional charge.

From One Extreme To Another
It may be our smallest satellite phone, but Iridium Extreme® is big on toughness and is built to take a beating. It is ruggedly engineered to support the toughest, highest usage customers of satellite phone communications in the harshest conditions, everywhere.

Iridium AxcessPoint
Combined with your Iridium satellite phone, Iridium AxcessPoint allows you to create a Wi-Fi hotspot and connect to the Internet. Now you can keep in touch on your trusted devices from anywhere on the surface of the planet.

Iridium AxcessPoint is part of our unique vision for using the power of the world’s furthest reaching network to bring extended and enhanced personal communications to people and organizations, everywhere.
