The Wideye™ iSavi™ terminal is the first and only satellite terminal developed for Inmarsat’s IsatHub service.

iSavi™ is lightweight, highly portable and is quick and easy to set up with no technical expertise or training needed, enabling you to get online via a satellite connection within minutes.

**FEATURES**

- Dependable Smartphone/Tablet-to-Satellite connectivity
  - Voice, data and text
- Connect from anywhere with no roaming charges
- Compact and portable
- Wi-Fi connection shared with your friends and colleagues within a 30 metre range
- User friendly operation via Smart Apps
- Power consumption is low and the battery can be recharged by an AC power adaptor, car charger adaptor or by solar panel
- Built-in firewall
- Dust and splash resistant (IP65)

**HOW IT WORKS**

- Inmarsat satellite
- IsatHub service
- Wideye™ iSavi™ terminal
- WiFi
- Your smart device
- 3G Global
- Talk
- Text
- Internet
- Multiple devices

www.wideye.com.sg
iSavi™ operates over the Inmarsat-4 (I-4) satellite and ground networks, which has global coverage (except for extreme polar regions), at an average availability of 99.9 per cent.

The service is accessed via Control and Voice apps (available for download on App Store and Google Play) downloaded onto a smartphone or tablet.

These 2 apps connect you to the I-4 network via the iSavi™ satellite terminal that has been type approved to work over Inmarsat’s network.

The control app provides set-up assistance and gives you full control over access to the IsatHub service as well as visibility of data usage from each device sharing the iSavi™ connection.

The voice app enables you to use your smart device to make and receive voice calls via iSavi™’s dedicated high-quality voice line, as well as sending and receiving text messages.
